

Sinclair Media's intention to direct their 62 stations to air an anti-Kerry piece before the election is an unthinkable abuse of my right to expect fair and unbiased television. As a citizen, I will be outraged if this is allowed to happen. This is the result of a very small number of corporations "owning" our public airways. News and other programming becomes nothing more than a mouthpiece for the Republican party who gave them this nice gift.

Please do your job!
